Appendix C

SQL Databases

Structured Query Language (“SQL”) Databases

The sources of data loaded into the SQL Databases include, without limitation:

- StorQM Optical Storage Device: BLMIS used the StorQM application to store historical customer records from December 1995 through November 2008, which include, but are not limited to, Customer Statements and Portfolio Management Reports (“PMRs”).
- Microfilm reels: BLMIS used this storage medium for historical customer records, which include, but are not limited to Customer Ledgers and PMRs as well as Portfolio Management Transaction Reports (“PMTs”).
- Spiral notebooks: BLMIS personnel recorded cash deposits and withdrawals in handwritten stenographic (spiral-bound) notebooks relating to certain customer accounts. Spiral notebooks were identified for the periods from April 1985 through September 1990, and August 1991 through November 1994.
- BLMIS’s bank records, from various banks, including monthly bank statements, check images, wire transfer records, and deposit slips.
- House 17 AS/400 System: This is the computer system that the BLMIS’s Investment Advisory Business used to manage customer accounts and generate Customer Statements.
- House 5 AS/400 System: This is the computer system that the BLMIS Market Making and Proprietary Trading businesses used to track and report trading and position information.
- House 17 Backup Tapes: These tapes were created in the normal course of business at BLMIS and contain historical and contemporaneous purported customer activity and customer records from the House 17 AS/400 System.
- House 5 Backup Tapes: These tapes were created in the normal course of business at BLMIS and contain historical and contemporaneous backups of the trading and position records from the House 5 AS/400 System.
- Madoff Securities International Ltd. historical trading and position records.
- Electronic files recovered from BLMIS employee computers and network folders.

- Electronic files recovered from BLMIS's Network Accessed Shares ("NAS").
- Cohmad Cash Database.
- Bloomberg Instant Messaging: Instant messages passed between House 5 traders.
- BLMIS phone logs from Avaya and BlackBerry.
- Security swipe data of employees and visitors from the Lipstick Building.
- Reporting data from the Depository Trust & Clearing Corporation ("DTCC").
- Reporting data from the Options Clearing Corporation ("OCC").
- Bloomberg Market Data.
- Data from the Center for Research in Security Prices ("CRSP").
- Data from the Chicago Board Options Exchange ("CBOE").

Appendix B
BLMIS Searchable Database

Repositories in the BLMIS Searchable Database

- Active email;
- Active desktops;
- Certain backup data;
- Other hard drives on the 17th floor of the Lipstick Building, including the 17th floor file share; and
- Certain hard-copy account documents from the 17th floor, 18th floor, 19th floor and the basement of the Lipstick Building and off-site storage

E-Data Room 1

E-Data Room 1

The following documents are contained in E-Data Room 1:

- Documents related to BLMIS's financial condition;
- Documents related to BLMIS's operations, including the Ponzi scheme;
- BLMIS customer monthly account statements;
- Other BLMIS internal records;
- Transfers of money to, from and within BLMIS; and
- BLMIS's regulatory disclosures.

The documents and data in E-Data Room 1 are organized generally by source, then document type. Some included categories are:

- BLMIS customer monthly account statements and ledgers;
- Data and reports from various electronic sources;
- BLMIS documents and work papers;
- Operational documents;
- FINRA documents;
- Certain documents received from the SEC;
- Some public documents such as plea allocations; and
- Certain hard-copy documents collected from the three floors in the Lipstick Building and BLMIS's off-site storage locations.

E-Data Room 1 is set up as indicated in the following screenshots (rev. 12/5/2015):

The screenshot shows the Relativity Workspaces application. The 'Active Cases' dropdown is selected, displaying a table of active cases. The table has columns for Name, Case Artifact..., Client Name, Matter Name, Matter Number, Status, Keywords, Database Lo..., Default File L..., Resource Pool, Created On, Last Modifi..., Created By, and Client Number.
